

## ORANGESCRUM CLOUD PERPETUAL LICENSING PACKAGE

### CLOUD SELF-HOSTED | PROJECT MANAGEMENT TOOL

#### ORANGESCRUM SERVER LICENSES: NOTICE TO THE USER(s)

**This server license certifies that by installing (or self-hosting) the Orangescrum Project Management Tool developed and owned by Andolasoft, you accept all the terms & conditions that are mentioned below.**

We have made Orangescrum Server Licensing to be as simple as it can be. Once you purchase the license package (with respect to number of users you chose for), the perpetual license allows you to use the licensed software indefinitely and also includes 12 months of software maintenance – as well as access to new software releases / enhancements / security updates, our world-class support team, critical bug fixes (if at all), and security patches – from the date of self-hosted license purchase.

This Orangescrum 'Software Licensing Agreement (SLA)' accompanies the Orangescrum Self-hosted product, features & other materials as provided by Andolasoft. The term 'Software' also includes any future upgrades, customizations or any special offers extended to you by Andolasoft on behalf of Orangescrum. Please read this SLA carefully. If you are reading this before being given the software, you will be asked to accept this agreement to continue further. If you choose to decline, the installation along with all the subsequent procedures will stop there itself & you will not be able to use the Orangescrum Project Management Software or any of its support services.

This application/software is protected by copyright laws, international copyright treaties & other intellectual property laws. What you will receive is just a license. You do not own the software or get the right or license to distribute the software to anyone by any means. Additionally, you also do not get any right to re-distribute this self-hosted edition in any way.

#### EVALUATION LICENSE

If you have not purchased a license from Orangescrum yet, you can also tryout the Orangescrum for a period of 30 days (on the Orangescrum Cloud Platform).

Tryout here: <https://www.orangescrum.com/signup/free>

Orangescrum reserves the right to extend the duration of the trial but under no circumstances, you can demand for an extension or use the software after your trial is over. You hereby agree & understand that the software may not have all its features; the outputs might be watermarked (if any) as we at Orangescrum sees fit. The trial software is to be used "AS-IS" & no support will be provided on the same. However, it is at the sole discretion of Orangescrum, Customer Advisory Board (CAB Team) to offer a support during this transition / trial period.

## **GRANT OF LICENSE**

Orangescrum grants to you the LICENSE to the following rights, with exceptions & clarifications as stated in this SLA.

**Perpetual License:** If you have purchased a PERPETUAL LICENSE from Orangescrum (or an Orangescrum Self-Hosted Plan), you are hereby granted a non-transferable license to use the software for the number of users as mentioned in your plan for your own organization in a single instance.

Orangescrum Self-Hosted is delivered to you, your company as a perpetual license copy that will allow you to use the licensed software indefinitely.

If you purchased a PERPETUAL LICENSE limited to number of users, the use of the software is limited to a case where total number of users does not exceed the maximum slots available in your plan.

**For the first year (starting from the date of purchase), the perpetual license also entitles you to download all updates to the software and to receive technical support.**

After the one-year period ends, you can choose to remain with the last version downloaded or to purchase a one-year Updates & Support package from the Orangescrum Sales Team (or email to [support@orangescrum.com](mailto:support@orangescrum.com)). There are no penalties for letting Updates & Support lapse for a while before purchasing an annual package.

**Renewable User License:** If you wish to increase the user limit (based on your current plan), you will be granted a non-transferable, nonexclusive user(s) license to use it with the software by Orangescrum (owned by Andolasoft). All renewable license decisions are made by Andolasoft on behalf of its owned product – Orangescrum.

You agree not to attempt to bypass the date limitations imposed by Orangescrum or tweak, tamper, manipulate or hack into the code to change the user limit set as per your purchased license. If you violate the SLA, you agree and give the right to Orangescrum (owned by Andolasoft) to take any legal action against you.

## DOCUMENTS

You may make unlimited copies of any of the documents provided by Orangescrum, but only for internal use. In no circumstances, those documents are to be re-published or to be distributed/given to a third party.

## COPYRIGHT

Andolasoft (the parent organization) owns the SOFTWARE 'Orangescrum' and all its related Editions and Services. All the codes are valuable trade secrets of Andolasoft & Copyright laws protect it. You cannot use this software or a part of it under your name, at any circumstances. This SLA only grants you the right to use the Orangescrum for your internal purposes only.

## RESTRICTIONS

- You will not resell, transfer, rent or lease the Software.
- You agree not to modify, adapt, translate, and reverse engineer the source code of the software.
- You will not alter the installer of this Software in anyway.
- You agree to hold the code of this software with the strictest confidentiality, including all the documents, offer (if any), and everything else given to you by Andolasoft (on behalf of Orangescrum).
- You agree not to use the Software to violate anyone's copyright protection with any unauthorized activity.

## NO WARRANTY

The Software is being delivered to you AS-IS & Andolasoft (that owns Orangescrum) gives no warranty on the use & performance of the software on your systems. The performance might vary with different system configurations. Neither does Orangescrum gives any assurance on your business profits/revenues/results or any damages. You hereby agree not to hold Andolasoft (that owns Orangescrum) responsible for any reason, whatsoever.

This license agreement lets you use the software – Orangescrum Self-Hosted Project Management Tool only for internal / official purposes only to manage your business, collaborate with your team and clients.

Keep Orangescruming.
